Attention: Vince Abela

13<sup>th</sup> October 2009

Dear Vince

As always, our school was delighted to use you as architect for our administration, and our new classroom blocks.

It is pleasing to have a potential stress issue be considerably lightened via consultation throughout from tender to completion, with a professional supervising the details to ensure the best outcome for our school.

Your assistance, opinion and thoughtfulness enabled the school to prepare before, during and after our major renovation and classroom upgrades.

Kind regards

Thomas Robertson  
Principal
