4 October 2009

## **To Whom It May Concern**

Pukekohe Intermediate School has received architectural and project manager services from Abela Architects since 2001. The most recent project was completed late 2008.

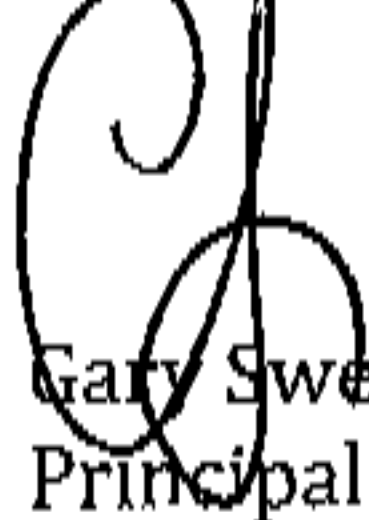

The school and Board of Trustees wish to sincerely thank Abela Architects and Vincent Abela for this relationship and the very high quality work undertaken by Abela Architects over this period. We would like this testimonial provided to others by Abela Architects.

Abela Architects has designed and managed approximately \$4.5 million in total with various projects at this school over this period.

The points that cemented the relationship and continued throughout were aspects such as Abela Architects listening to our needs, giving advice about these and posing alternatives, working alongside the school and maintaining a vision of the overall development of the school.

I can be contacted for any other information. My email is [g\\_sweeney@pukekoheint.school.nz](mailto:g_sweeney@pukekoheint.school.nz)

Yours sincerely

Gary Sweeney  
Principal
